5. **UPDATE ON I-5 REHABILITATION PROJECT:** Steve Rogers, Caltrans Project Manager, informed the Commissioners' of the upcoming work on the project. The two-lane section further to the north, and the three-lane section further to the south have been broken into two projects. The two-lane section, presently on hold due to weather, will allow winter work and the shift of traffic. The three-lane section would not allow traffic shifting in the winter months and is scheduled to begin in March. Landscaping will be a separate project in the fall.

6. **CONSTRUCTION OF THE I-5 SOUTH AVENUE INTERCHANGE:** Steve Rogers began by saying how well the ribbon cutting ceremony went. There are three components remaining to complete this project. Repair of the detour used, which is waiting for good weather, and a drainage issue which will need rock lining. The remaining work is a signal at the northbound ramp which will change to allow unprotected movement.
7. **STATE ROUTE 99 UPDATE:** Steve Rogers reminded the Commission this project is dependent on bond sales. Over the last few months, it was uncertain if it would receive funding. Headquarters informed the District that if this project is ready to go to bid before Christmas, it could be funded. Staff will get this done and go to construction in the spring. This is good news.
8. **UPDATE ON STATE TRANSPORTATION IMPROVEMENT PROGRAM (STIP):** Barbara O'Keeffe announced that District 2 will be working with the Technical Advisory Committee (TAC) for a STIP workshop. This workshop will discuss the Regional Transportation Improvement Program (RTIP). The lack of and instability of funding is having an impact on projects programmed within the STIP. Guidelines will be reviewed, as well as strategizing due to the 30% to 40% of the existing projects, which will be delayed due to funding. The RTIP is due in February and contains our projects. The Federal dollars that are available for Transportation Enhancement (TE), are limited to enhancements only. We have an existing project that can use those Federal dollars, approximately \$556,000, which will augment the Los Molinos Bond Project. Adoption is anticipated in May of 2010.
9. **2010 COMMISSION AND TRANSIT AGENCY BOARD MEETING DATES:** Barbara O'Keeffe discussed the lack of money at the State level. Staff is trying to coordinate the TAC meetings and the TCTC meetings to directly follow the California Transportation Meetings. Over the last year, there are times when staff did not have information to present. There are only two months of conflict in April and October of 2010. Staff will present the schedule at the February 2010 meeting. This item was not an action item at this time.
