The CTP meets Federal and State requirements for a long-range transportation plan to address future mobility needs. New to this version are AB32 and SB 391, which deal with greenhouse gas emissions. It is anticipated that the CTP will be signed by the president of the California Transportation Agency in December 2015. Currently, a statewide travel model is being developed, which deals with vehicle miles traveled, emissions, and vehicle efficiency. The draft plan will be distributed in winter/spring 2015, to be followed by public outreach. The final plan is expected to be adopted in December 2015.
